

Yaşargil Microneurosurgical Academy

Established 2022

Dear Dr. García Feijoo,

As president of the Yaşargil Microneurosurgery Academy, I am appreciative of your initiative in establishing the **“Yaşargil Award”**, aimed at recognizing excellence in microsurgical techniques for the best participant trainee in your microneurosurgery courses that you have established at the Neurosurgery Department of Hospital Universitario La Paz in Madrid, Spain.

We hereby authorize you to use the name **“Yaşargil Award”** exclusively for this purpose. This authorization is granted on a non-exclusive basis.

We highly value this initiative, as it kindles and fosters young trainees to thrive in microneurosurgery. It serves as a fitting tribute to Prof. Yaşargil’s enduring legacy and his profound impact on modern neurosurgery.

Sincerely,

Ossama Al-Mefty, MD, F.A.C.S
